

Funeral Home Assistant

STORY OF THE DECEASED

The digital era allows you to leave messages with personal videos, photos, music, or text.

Emotional connections & a Legacy that friends, family & future generations will cherish.

With iTernal USA we get all the necessary information about funeral home services, and at the same time, this high tech product can also serve as a digital performer or assistant to the funeral and memorial ceremonies. As such it offers a selection of information, images and videos about the deceased. It represents personal and emotional connection between the deceased and his loved ones.

WHY A DIGITAL MONUMENT?

- Funeral and memorial service calendar
- Sound or video farewell message of people who cannot attend funeral ceremony
- Playing music
- Prearranged funeral service
- Grave location map
- Funeral home presentation info
- Funeral home advertising

iTernal is world's first innovative, future oriented & completely personalized digital assistant for funeral and memorial services. It's a result of modern technological development; it assists funeral homes with providing various new high tech services (f.e. distance services); with a selection of images and more information about the deceased, it becomes a story of the deceased; it assists funeral homes with other cemetery services such as grave location maps and advertising.

The life of the dead is placed in the memory of the living.
